Intelligent Course Scheduler

Here are some things to try out with our interactive degree planner!

- Start **planning** a **Bachelor of Engineering** degree

- or **plan** a **Bachelor of Advanced Computing** degree

- **Search** for any course using the search bar on the left

- **Filter** your search by course code or year level

- **Click** an elective course slot to only see courses that you can take in that semester (**prerequisites and all!**)

- **Drag and Drop** a course from the search results or degree progress tracker onto any elective slot

- **See Course Recommendations** by clicking any course or the "Recommendations" tab on the left!

- **Search** for any major, minor or specialisation -
    - **Try:** "systems"   **or** "computer"

- **Add a major, minor or specialisation** to your degree plan
    - **Try:** Computer Systems **or** Theoretical Computer Science

- **Ask** our intelligent assistant a question!
    - **Try:** Can I use the same course for a major and a minor?
    - **Try:** How do I delete courses?
    - **Try:** How do I use search filters?
